

Bench 3-seater, full size backrest, 2 sidetable handrest

The Momentum Bench 061102M embodies the spirit of Scandinavian design, combining playful minimalism with a warm and contemporary aesthetic that enriches urban settings. This model is designed to offer comfortable seating with a full-size backrest option, and two wide hand rests that work as a small side table. Therefore providing a blend of support and comfort, making it ideal for compact spaces, pathways, and communal areas where versatility is key. Crafted from glue-laminated northern pine, the wooden seat planks are finished in a natural tone or treated with paint or linseed oil for a refined look. The 061102M features a wider 8mm metal frame that is 120 in width in powder-coated metal, available in dark grey, black, or custom colour options, enhancing durability and style. The bench is part of a modular system, allowing seamless integration with other Momentum elements to create cohesive outdoor arrangements. Installation options include free-standing, surface fixation, and ground mounting with underground legs, ensuring adaptability to various environments and
