

The 061108M model features a half-size backrest and one narrow handrest for added comfort and functionality, making it an ideal choice for public spaces, pathways, and gathering areas. Crafted with attention to detail, the bench features glue-laminated northern pine seat planks, sized at 1800x42x120, available in natural tones or treated with paint or linseed oil for durability and refined aesthetics. The 061108M model includes 8mm metal frames with a 45mm width, powder-coated in dark grey, black, or unique colour options to match various urban settings. The 061108M bench's modular design allows for easy customization, including the option to add a separate table. It offers versatile installation choices such as free-standing, surface fixation, or ground mounting with extended underground legs, ensuring stability and adaptability in different settings. The Momentum Bench series captures the essence of Scandinavian design, emphasizing playful minimalism and a warm, contemporary aesthetic. Its carefully balanced design integrates symmetry, repetition, and modularity,
