

Bench 6-seater

This 061115M park bench offers a long, streamlined, backless configuration with optional handrests, allowing for versatile arrangements in bigger spaces or areas with limited seating options. Crafted with precision, the 061115M features glue-laminated Nordic pine seat planks, available in natural tones or treated with paint or linseed oil for a refined finish. The bench's 8mm metal frame 45mm in width is powder-coated in dark grey, black, or customized colors, ensuring durability and resistance to wear. Wooden seat planks are 1800x42x120 in size making seat to be 3600 in total length. The modular design enables seamless integration with other Momentum series elements. Installation options include free-standing, surface fixation, or ground mounting, making the 061115M bench a flexible and stylish choice for various urban and park environments. The Momentum Bench 061115M captures the essence of Scandinavian design with playful yet minimalist elements that create a warm, inviting aesthetic. Designed for urban environments, this bench prioritizes modularity and adaptability,
