PANNA ARENA

Panna Knock Out game from Suriname, has been an inspiration to Panna Arenas. Product is rounded, small Arena, with simple design and cause of that, it suits from parks to urban environments. Arena is designed not for only one game. It suits also perfectly as all different ball games field. Only imagination is the limit. There are two goals and rounding steel cage, in product. Panna Arena is 6190 mm wide, the length is 12320 mm and the walls are 2050 mm high on the ends of the arena. There can be 4-8 players at once on field, what is one reason why it fits to school environment. Cause of the smaller size, Panna fits perfectly to the areas, where there are troubles to create larger sport fields. Foundation options for the Panna arenas are deep and surface.

Product length, mm	12320
Product width, mm	6190
Product height, mm	2050
Installation time (for 1), H	32
Foundation options	deep_mounting surface_mounting
