CARGO NET WALL

The Cargo Net Wall is a 1,660 mm high obstacle wall with a net on one side and a solid wall on the other. The net is angled, while the wall is vertical. The wall can be climbed to strengthen the upper body. An easier version is to ascend using the ladder and descend by jumping down. Climbing a wall is a fun way of providing new forms of exercise for adults, which is guaranteed to raise the heart rate!

Number of users	1
