

The Base M is another fundamental obstacle for parkour training with easy landings and pop-vaults, low wall techniques, hanging and climbing. The slanted design offers variety to training and makes the equipment inviting and inspirational. The surfacing provides perfect friction for parkour training regardless the weather conditions. Inner walls always have colored graphic elements. Colors are derived from other elements in the layout Watch a wide selection of parkour techniques performed on Dash Parkour equipment. The playlist showcases how the products can be used in versatile ways: Watch the videos here.
