

Base Double L

Base double L is the most versatile of the Base Doubles. There are both inclined and vertical surfaces for increased variety for wall techniques. The height combined with well placed bars enable many swinging and hanging movements, climbing and variety of landings on the walls. The floor of the lower frame is also good for creative landings and foot placement drills. The creative shapes along with mural and inner wall colouring give it the unique look which is characteristic to the whole Dash Parkour series. Watch a wide selection of parkour techniques performed on Dash Parkour equipment. The playlist showcases how the products can be used in versatile ways: Watch the videos here.
