

MODULE 3: VAULT & PRECISION

MODULE 3 includes the following products: 2x Dex Step (081700M), 2x Dex Landing (081701M), Dex box (081702M), Vault S (081720M), Vault L (081722M), Rail Corner High (081712M). This module's core functions are vaulting, balancing and foot placement and underbars. The placing of the elements generate numerous movement combinations. Combining it with other modules that offer other functions you can make it even more versatile.
