

The Sisu Box XL is a durable and compact outdoor training tool designed for functional fitness and bodyweight workouts. With a height of 750 mm, it supports various exercises, including jumps, strength training, and core stability. Built with carbon steel and finished with black structural paint, it withstands harsh outdoor conditions. The anodized aluminum surface ensures excellent grip and UV resistance, providing a safe and maintenance-free experience. Ideal for public parks, schools, and outdoor fitness areas, the Sisu Box is an essential addition for all training levels.
