

Linnea is a large sandbox belonging to the ABC family of products, with room for several small playground users at a time. In the center of the box there are three 570 mm high tables, two of which can feature either a play stove or a car-racing track (to be chosen on installation). The tabletop can easily be flipped over at a later stage. Kids can also crawl under the table. Outside the sandbox there is one toy box for storing toys when not in use. The high pressure laminate sides are perfect for grown-ups to sit on the edges. Sandbox play particularly develops a child's sense of balance and spatial perception.

User age	1+
Number of users	31
Product length, mm	4100
Product width, mm	4900
Product height, mm	710
Impact area, m <sup>2</sup>	19
Falling space, m <sup>2</sup>	50.4
Height required, mm	2510
Max. free fall height, mm	590
