This is a large and diverse playground set that is bound to inspire all children. A lower (870 mm) and a higher (1,470 mm) tower make it exciting, and various different climbing elements work together to diversely develop the children's motor skills. The steps, tunnel and slide are suitable for safe sliding by the youngest ones. The taller tower can also be accessed by a rung net, curved climbing frame with net or a curved ladder, or via the smaller tower and the exhilarating exit at high speed is via the slide. There is a fun board bridge and rung bridge for safe passage between the towers. Beneath the tower equipment there are labyrinth and roulette walls as well as four seats for having a rest when necessary.
