Towers
2

A climbing frame with two towers. These towers are connected by a beam with grips, allowing children to move from one tower to the other. The larger tower includes two climbing nets along its sides and one on its top, a climbing wall with holes and a set of gymnastics rings. The smaller tower contains a rung ladder and a beam for hanging from, as well as two climbing nets, one along the sides of the tower, the other on its top. Thanks to its design, which allows for a variety of climbing and gymnastics options, the climbing frame can be used simultaneously by a large number of children. Climbing develops children's sense of balance and strength.

User age	3+
Number of users	16
Product length, mm	4920
Product width, mm	1690
Product height, mm	1980
Impact area, m²	39.1
Falling space, m²	39.1
Height required, mm	3470
Max. free fall height, mm	1970
Safety info	EN 1176-1 TÜV
Installation time (for 1), H	10
Foundation options	deep_mounting surface_mounting
Wood	
Metal	
Colour of walls and HPL	
Ropes
