Multifunctional,, tower set suitable for kids of different ages split on two levels. There are steps leading to a low (870 mm) platform and the adjoining slide. The higher (1,470 mm) tower can be accessed by the climbing wall with holes or the climbing frame on the side. These options provide challenges for climbers of different levels. Descent is via a slide or a fireman's pole. Beneath the tower there is a roulette wall. 1970 mm high climbing frame consists of see-through climbing wall with genuine bouldering grips, climbing frame with rungs, rings, trapeze and a horizontal climbing net. Thanks to its many options, it can accommodate several children at a time. Climbing develops children's sense of balance and strength.
