A motoric workout offering a variety of climbing and balancing options. This workout offers a circular path which can be traversed. Access to the towers is via a climbing wall with holes, two up a climbing nets, two climbing frames with rungs or a rung net. Children can descend the towers using two fireman's poles. One tower can be accessed from the other by balancing on a rung, suspension or a board bridge, by using the net bridge or by climbing across the climbing net. The motoric workout can accommodate a large number of children, making it highly suitable for school yards and similar locations. This item of playground equipment also has a set of monkey bars, a balancing rope and four seats. Balancing develops especially balance and body control.

User age	4+
Number of users	34
Product length, mm	7950
Product width, mm	5000
Product height, mm	3820
Impact area, m ²	84.2
Falling space, m ²	85.6
Height required, mm	3820
Max. free fall height, mm	2570
Safety info	EN 1176-1 TÜV
Installation time (for 1), H	29
Foundation options	deep_mounting surface_mounting
