4

A motoric workout offering a variety of climbing and balancing options. This workout offers a circular path which can be traversed. Three of the towers are located at a height of 1,470 mm, and one at 870 mm. Access to the towers is via different kind of ladders or up a climbing net. Children can descend the towers using a fireman's pole. The motoric workout can accommodate a large number of children, making it highly suitable for school yards and similar locations. Balancing develops especially balance and body control.

User age	3+
Number of users	15
Product length, mm	4890
Product width, mm	4860
Product height, mm	2260
Impact area, m ²	53
Falling space, m ²	54.6
Height required, mm	3270
Max. free fall height, mm	1900
Safety info	EN 1176-1 TÜV
Installation time (for 1), H	15
