A motoric workout offering a variety of climbing and balancing options. This workout offers a circular path which can be traversed. Three of the towers are located at a height of 1,470 mm, and one at 870 mm. Access to the towers is via different kind of ladders, stairs or up a climbing net. Children can descend the towers using a long or small plastic slide. The motoric workout can accommodate a large number of children, making it highly suitable for school yards and similar locations. Balancing develops especially balance and body control.
