Goblin's Forest

- Balancing *1*
- Bridges *2*
- Climbing *4*
- Roofs *2*
- Slides *1*
- Towers *3*

Goblin's Forest is a multifunctional piece of playground equipment with many options that develop children's motor skills and are suitable for climbers of different levels. It includes two 1470 mm high, covered towers that can be reached by a climbing wall, a climbing ramp, a peg ladder, or a normal ladder. Access from one tower to the other is by balancing on a rung bridge or a zig-zag crossing. An exciting, long slide is guaranteed to give a thrilling ride. The fact that the various climbing sections are organized in the form of routes provides diverse forms of exercise and fosters the children's imaginations. The Goblin's Forest settles smoothly into its environment, and the imagination is the only limit beneath its lovely leafy roofs.When the product is placed in a kindergarten yard, please consider adding safety bridges (A10376) under the zig-zag and step bridge crossings.

User age	3+
Number of users	11
Product length, mm	5020
Product width, mm	7330
Product height, mm	3820
Impact area, m²	52.6
Falling space, m²	52.9
Height required, mm	3820
Max. free fall height, mm	2190
Safety info	EN 1176-1, 3 TÜV
Installation time (for 1), H	22.5
Foundation options	deep_mounting
