Maximus is a breathtaking adventure fortress, which provides hours of fun! This dream-like play structure consists of several exciting, high towers that are connected to each other by different types of bridges. Children are invited to play at all levels. Some sections are for younger ones, whilst others invite older children for memorable experiences. Whatever the surrounding for this fortress will be, the beautiful wooden nature play structure is always a perfect fit. An excellent choice for destination parks and any other places where high capacity and variety of activities are needed. It can also be customised according to your wishes by our MyDesign service.
