Spell hill looks quite tame, but thanks to the two different sized towers, grand slides and numerous climbing features it excites players again and again! The transfer between the towers is a thrilling challenge with a 2,5 m long, slightly slanted net bridge with handrails, and it is the only way to the second tower. The towers reach up to almost 4 metres. The second tower has a U-shaped net underneath for climbing or just hanging out with friends. It can be accessed from the ground. More details on the "Materials and colours" tab. The product is manufactured from locally sourced nordic pine. Available in Natural Tone and Flora Brown.
