

175530M

The Troll's Balance Beam

Like a sunken log! The Troll's Balance Beam is 370 mm high and 2,380 mm long. In the form of a real log, it is suitable for games that develop balance. A simple balance beam like this can be used in many ways, for example by installing several in a row to create diverse balancing routes, or placing them side by side to form an obstacle course. The beams can also be used to mark out different areas of a playground. The product is manufactured from locally sourced nordic pine. Looking for a Nordic Swan Ecolabelled product? This product is available with the Nordic Swan Ecolabel (item no. SL175530) in Nature Tone with deep mounting. Contact us and we'll be happy to tell you more!
