

Flora plant box

Let the children observe the miracle of growth in the most fascinating way; by letting them plant their very own flowers or vegetables. Flora Plant boxes are ideal for sensory play for a wide age range, as well as for beautiful home for flowers or veggies in any park or garden. Flora plant box is deep mounted and it does not have any bottom floor. The corner posts are installed 12 cm deep and they keep the box stationary and the surface below works as a floor to the soil and plants.
