Krypton is a multifunctional playground set for children of diverse ages. It can fit several children at a time. The lower slide is suitable for younger kids, while older ones will be fascinated by the various climbing sections. Access to the 870 mm high slide is safe via steps. The higher tower (1,470 mm) can be accessed by climbing net or a leaning peg ladder. The tower is also accessible via a climbing wall and a balancing bridge. A fun rung bridge is great for developing balance and using in various kinds of role playing games.
