PYRAMID CLIMBER

This pyramid-shaped piece of equipment consists of 11 balls, some of which are connected to each other by hot galvanized carbon steel precision tubes. The overall diameter of tubes is 60mm and wall thickness 2,5mm. The total height of the product is 1,510 mm. This product is multifunctional for practicing precision jumping, providing an excellent multidimensional launching surface. Precision ball cores are built of polycarbonate and the surface material is thermoplastic rubber giving the surface a non-slip, soft feel. The joint is supported on the inside by a metal net which reinforces the ball's structure to handle high demands of the sports of Parkour. Product is available in deep and surface mounting versions. The Cloxx Parkour products conform to the European Standard for Playground equipment EN 1176, so they are suitable for schoolyards and playgrounds.

User age	4
Number of users	10
Product length, mm	2510
Product width, mm	2340
Product height, mm	1510
Impact area, m²	17.7
Falling space, m²	22
Height required, mm	3310
Max. free fall height, mm	1510
Safety info	EN 1176-1 TÜV
Installation time (for 1), H	11
Foundation options	deep_mounting surface_mounting
