Wall Bouldering Cube M

Wall Bouldering climbing walls are designed for safe climbing. The Cube M cube consists of ten square-shaped climbing walls that form a variety of climbing routes for beginners and advanced climbers alike. The sloping walls challenge even the most experienced climbers, while the low height ensures safety. Different coloured holds indicate the difficulty of the move; red and yellow are harder, blue and green easier.

User age	5+
Number of users	6
Product length, mm	3760
Product width, mm	3210
Product height, mm	2190
Impact area, m ²	25.2
Falling space, m ²	25.2
Height required, mm	3990
Max. free fall height, mm	2190
