

Sona, Interactive dance and play arch.

The Sona is designed for an inclusive and positive gaming experience for a wide audience. It allows everyone to play together, responding to movement underneath it and offering a variety of games at the press of a button. Through an online platform, owners can download different games, including cognitive challenges and fitness activities. Its durable steel frame ensures it can be used outdoors for years. The Sona is suitable for communities, public parks, and elderly care homes, supporting interactive play for 10 or more players of all ages. [Read more about the Lappset Sona here.](#)
