

Why settle for a traditional rectangular sports arena with just two goals? Meet Toro, the interactive sports arena that breaks the mold. Toro's vibrant design, featuring sloping corners and four interactive goals per side, ensures constant ball contact and immersive gameplay. Developed with Olympic gold-medal coach Marc Lammers, Toro delivers fast-paced action, strategic play, and reactive challenges. Ideal for municipalities, sports facilities, schools, parks, resorts, and entertainment centers. Embrace the future of sports arenas with Toro—where technology, efficiency, and reliability come together for an unbeatable experience. Read more about the Lappset Toro here...
