

## Toro Ace Arena L, without entrance

Toro Ace Arena boarding L, size 13,8 x 13,8 m (44' 11" x 44' 11") (length x width) without an offset entrance. In this variant, the boarding is entirely closed to maximise the gameplay. To enter the arena, users have to climb the boarding. When an entrance is preferred, please check the variants that offer an offset entrance for easy access for everyone. The Toro is a fast-paced game, and adding the proper boarding are essential for active gameplay. Therefore, our boarding systems are designed such that all components are flush with the Toro goals. The ball returns the way you expect it to return because there are no overhead structural parts for the ball to bounce off. Arena`s restrained wooden colour and construction with elegant round design make the product merge easily into any environment. The arena can be deep or surface mounted.
