

Memo, Interactive play pillars

Elevate educational play with Memo, the innovative solution for interactive learning. Equipped with seven pillars, each featuring a 360° LED touch screen, Memo offers a dynamic and engaging experience from all angles. Designed to engage and educate, Memo's name reflects its dual focus on memory and movement, essential for effective learning. The games foster crucial social skills like teamwork while promoting active, healthy habits through constant movement. The games support the development of 21st-century skills, STEM education, and active play. Memo is the ideal choice for schools, kindergartens, family entertainment centers, retail environments, and municipalities. Embrace the future of play and learning with Memo, where technology and education meet to create endless possibilities. Read more about the Lappset Memo here.
