

Fono in marine grade (Momentum)

Fono is the world's first outdoor DJ booth where you can play your own music by placing your phone on sound-amplifying pads. This transforms public spaces, skate parks, fitness zones, and resorts into fun hangout spots. Fono offers an interactive experience where you can DJ or dance with friends, catering to young music lovers. It plays the latest hits directly from your smartphone, allowing aspiring DJs to mix and edit like pros. With classic sound effects for added flair, Fono ensures anyone can showcase their musical identity. Lappset Fono comes in two series: the Momentum Park series with wooden detailing or the more urban Cloxx series with metal seating bars and an HPL roof. Read more about the Lappset Fono [here](#).
