

Movable Platform - Sisu

The movable platform for Sisu Fitness equipment enables quick installation on a flat and load-bearing base without groundwork costs. The platform and the device installed on top of it can be easily moved as a single package using the lifting loops used in the corners of the platform. The movable platform is suitable for products: 081860, 081861, 081862, 081863, 081864, 081865, 081866, 081867, 081868, 081880, 081881, 081882. The surface of the platform is light gray artificial grass and the edge frame is made of hot-dip galvanized steel.
