977240

Softblock straight, green

Create colorful and functional environments by combining SoftBlock products of different shapes and colors. The products are suitable for benches, room dividers and balancing tracks. SoftBlock products can be used, for example in sidewalks, shopping malls or parks. In addition to the basic colors red, black, gray and green, SoftBlock products are available in EPDM 1 and EPDM 2 colors. Indoors, the products can be glued directly to the substrate. Outdoor elements can be mounted on concrete or, for example, on a rubber base. For deep foundation, you can order 2 pieces of required mounting parts with product number 977002.

Product length, mm	500
Product width, mm	350
Product height, mm	400
