

The Snufkin's forest is an inclusive play product that offers many activities also for children with limited abilities. The climbing tower has play functions on three levels. On the ground, we play hide and seek. The fishing net is perfect for balancing and relaxing with a friend. The slide on the second level is easy to reach with the triangular floors. On the highest level, which can be reached by a curved climbing wall, we can explore the environment with a play telescope and then come down on the higher slide. The product has also two games: Snufkin's labyrinth and the Seek-and-touch game.

User age	1+
