

JAKOB LITTER BIN

Litter-free playgrounds with Jakob. Jakob is a 35-litre litter bin. The litter bin has several fixing options - either set in poured foundations with a central post (50 mm), wall-mounted using a bracket for wall mounting (NF2472), or installed using a bracket on an existing post (105-120 mm) (NF2473). Jakob is made from 3 mm powder-coated steel.
