

Chillout bench, jatoba, deep mounting with foundation plates

Chillout is a new furniture group for casual meetings and hanging out in school yards, squares or parks. The furniture consists of four modules - a stand, sofa, pallet and a bench - which can be combined together into different formations or placed separately. The timber is available in linseed oil impregnated pine or in oiled Jatoba. The steel parts of the furniture are ED lacquered and powder lacquered. The bench weighs about 120 kg. Design: Måns H Sjöstedt – Yellon
