LAPPSET

# RF2131M
# IMSE HAMMOCK

The Imse outdoor hammock is a playful bench that rocks gently. Lappset's hammock has a steel base and frame. The seat is pinewood and hangs from steel-reinforced ropes on the frame and there is a stop chain to limit the hammock's full swing motion. Imse wooden parts come with five standard colors and Linax oil impregnation treatment as sixth color. Metal parts have four standatrd colors. Two installation versions; deep mounting with wet concrete and surface installation for hard solid ground fixing. As optional accessory there are large metal plates which enable installation almost free standing when the ground is unsuitable for digging or screwing bolts..
