

Troll's Balance Beam (ASTM)

The US175530 product complies with the ASTM Standard. Like a sunken log! In the form of a real log, it is suitable for games that develop balance. A simple balance beam like this can be used in many ways, for example by installing several in a row to create diverse balancing routes or placing them side by side to form an obstacle course. The beams can also be used to mark out different areas of a playground.
