

## Memo Interactive play pillars

The Lappset Memo Interactive Play Pillars consist of seven pillars, each with a 360-degree polycarbonate touch screen and vivid LED lights that respond to touch, even with gloves. Each pillar has an audio speaker system, and the set is controlled by a central master pillar. Memo combines fun, physical activity, and learning through engaging games, offering both sports and educational challenges. LED lights and audio provide real-time feedback and encouragement. It includes wireless internet for updates, monitoring, and customization via the Lappset Dashboard. Designed for outdoor use, Memo is also suitable for indoor spaces. The surface is sold separately.
